 - Preserved Farmland
 - Historic Greenbelt

Allentown desires to work with surrounding townships to create an 'Allentown Historic Greenbelt' around the town to attempt to preserve the historic character of the community. The Greenbelt could involve land preservation in areas around the town in conjunction with Allentown and surrounding communities. The Greenbelt would encourage communities surrounding Allentown to consider the affects of development on the historic character of nearby Allentown when reviewing and approving development applications and to look for opportunities to preserve open space around the historic community as part of any developments that are approved.
